

Fragile X Alliance Inc.

Townsville Free One Day Seminar

Friday, 24th June 2011

Fragile X Syndrome

**Fragile X is the most common cause of inherited intellectual disability
but is hardly known.**

Fragile X Association of Australia have arranged for the Fragile X Alliance Clinic to present an overview of Fragile X Syndrome for Health Professionals, Educators and Families. Update yourself on the latest about this important cause of developmental disabilities, ADHD and ASD before the introduction of the Better Start Initiative. All speakers are recognised experts in their field and will cover a wide range of management strategies relevant to developmental disabilities and autism spectrum disorders.
